templated packages for touchscreens

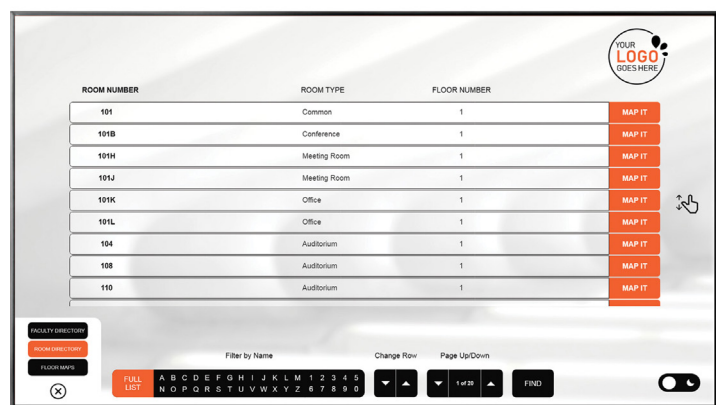

Now it's easier than ever to deploy interactive wayfinding, directories, donor boards and hall of fame boards for your building or campus.

Our templated packages are designed to provide user-friendly touchscreen solutions for clients on a budget. These affordable designs are built from templates created by our award-winning creative team. We'll incorporate your colors, font and logo with all the basics that you need for an informative, user-friendly design. And all of our designs include a custom webpage to update your directory data at any time, from anywhere.

## Interactive Wayfinding

Effective wayfinding is essential for every organization – corporate and college campuses, healthcare facilities, government buildings, hotels and conference centers and more. Interactive wayfinding maps lead your visitors through your facility and give your audience a convenient one-stop source for information.

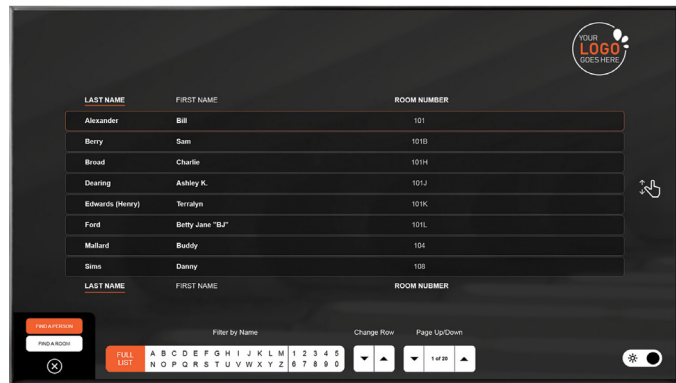

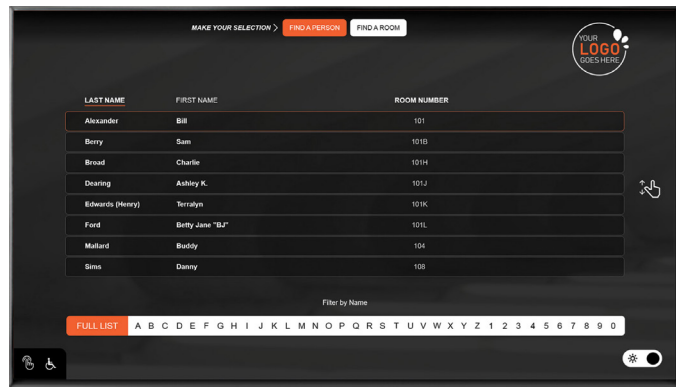

- Portrait or landscape design in one resolution
- 3 Floor maps or 1 campus map with "You Are Here" indicator
- Noted landmarks like restrooms, stairs/elevators, and exits with matching legend
- 2 Directories of your choice sorted alphabetically or numerically
- Directory buttons at top and bottom of screen
- Interactive alphabet at bottom of screen for quick filtering
- Design tailored to your brand with your logo, colors and font
- Designed in both light and dark modes with quick toggle switch
- ADA controls at bottom of screen
- Update via a user-friendly webpage

# Interactive Directory

Touchscreen directories are modern and efficient, allowing people to guide themselves instead of relying on receptionists and information desks.

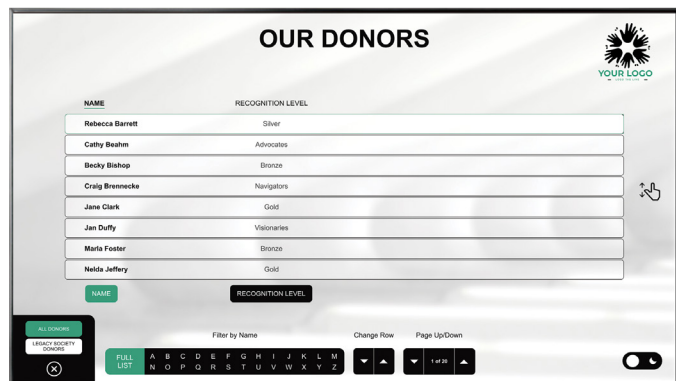

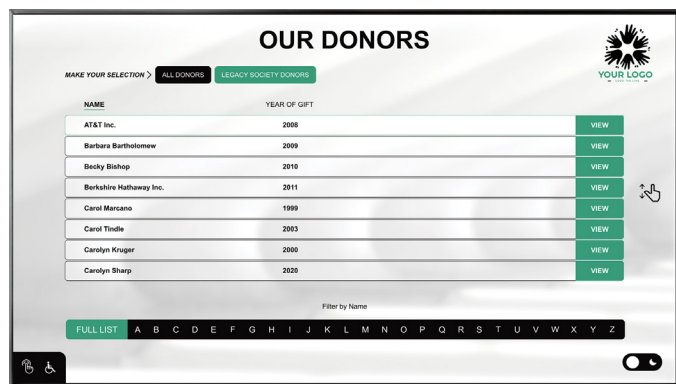

- Portrait or landscape design in one resolution
- 2 Directories of your choice sorted alphabetically or numerically
- Directory buttons at top and bottom of screen
- Interactive alphabet at bottom of screen for quick filtering
- Design tailored to your brand with your logo, colors and font
- Designed in both light and dark modes with quick toggle switch
- ADA controls at bottom of screen
- Update via a user-friendly webpage

# Interactive Donor Board

Touchscreen donor boards are a great way to thank patrons and encourage giving. Highlight individuals or donor groups.

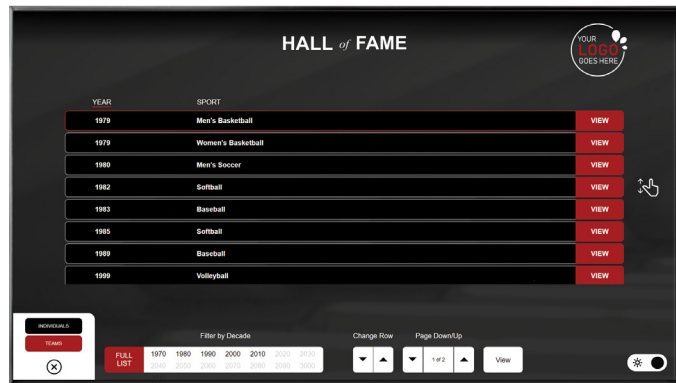

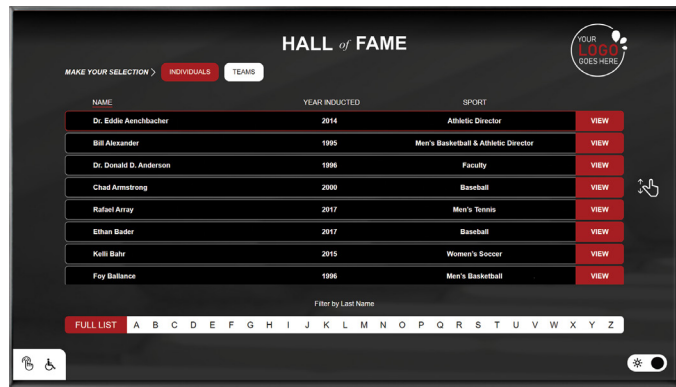

- Portrait or landscape design in one resolution
- 2 Directories of your choice sorted alphabetically or numerically
- Directory buttons at top and bottom of screen
- Interactive alphabet at bottom of screen for quick filtering
- Design tailored to your brand with your logo, colors and font
- Designed in both light and dark modes with quick toggle switch
- ADA controls at bottom of screen
- Update via a user-friendly webpage

# Interactive Hall of Fame Board

Recognize alumni, sports teams, clubs and other important groups with our touchscreen hall of fame board.

- Portrait or landscape design in one resolution
- 2 Directories of your choice sorted alphabetically or numerically
- Directory buttons at top and bottom of screen
- Interactive alphabet and dates at bottom of screen for quick filtering
- Design tailored to your brand with your logo, colors and font
- Designed in both light and dark modes with quick toggle switch
- ADA controls at bottom of screen
- Update via a user-friendly webpage

All of our templated interactive projects are HTML5 hosted solutions from Visix, and you can update your data via a user-friendly website that we'll create for you.

Pricing includes full project management by a Visix specialist, and installation and scheduling of the design in your AxisTV Signage Suite system. Hardware and software licenses are not included.

We are also happy to quote additions or custom projects.
