Interactive

Trust our artists with your vision.

Whatever your goal and budget, our award-winning designers can craft interactive experiences that connect people, solve challenges, improve information sharing and entertain audiences.

We can build 100% custom interactive screen designs, or you can brand our more affordable templated options. No matter what, we'll help you improve your audience experience.

Custom Wayfinding & Directories

Whether it's a single building floor or an entire campus, our award-winning designers can tailor a wayfinding system that meets your needs and improves the visitor experience.
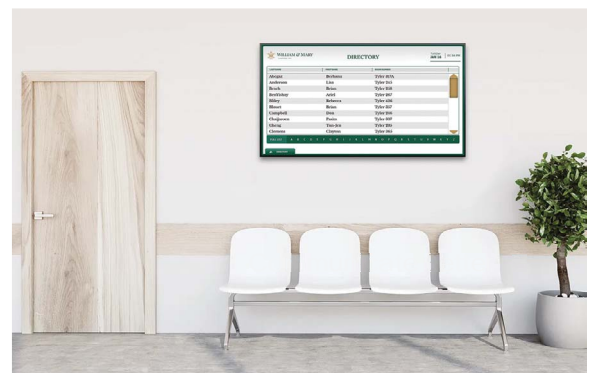

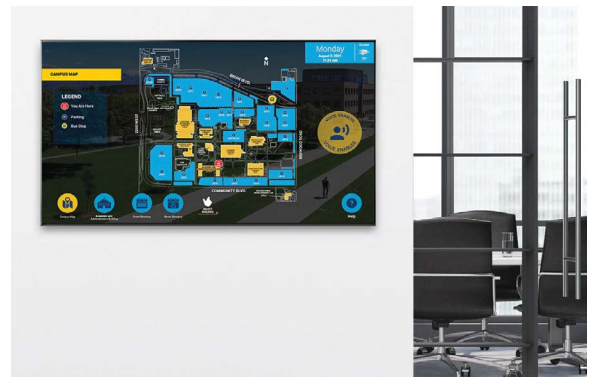

Include directories for staff, departments, rooms and events showing visual paths from the screen to the destination. We can also build in quick reference buttons to find elevators and restrooms, and all of our designs include ADA controls at the bottom of the screen for convenience and compliance.

And we don't just stop at the design. Our creative team works with your facility planners, marketing experts and project managers to concept, design, implement and test your interactive designs.

We'll also deliver the original artwork, media and uncompiled source code files with the final project. They're yours, after all.

- Map to events, personnel, room and department directories
- Include quick-reference legends and ADA controls
- Show fullscreen or integrate with traditional digital signage
- Include a QR code to let people take the wayfinding project with them
- Add SMS integration to let users text wayfinding info to their phone
- Toggle between dark and light modes for ease of viewing
- Offer multi-lingual options for an inclusive audience experience
- Use directory databases for easy updates you can do yourself

If you need hosting for your project, we can help. We can even build a user-friendly web interface so you can make quick updates to directories yourself.

Templated Packages

Get touchscreen designs without breaking the bank with our affordable templated packages for AxisTV Signage Suite. We'll incorporate your branding and data with all the basics you need for an informative, user-friendly touchscreen design. And all packages include a custom webpage to update your interactive directory data at any time, from anywhere.

Interactive Wayfinding

Our templated wayfinding is designed to provide a user-friendly touchscreen wayfinding and directory solution for clients on a budget.
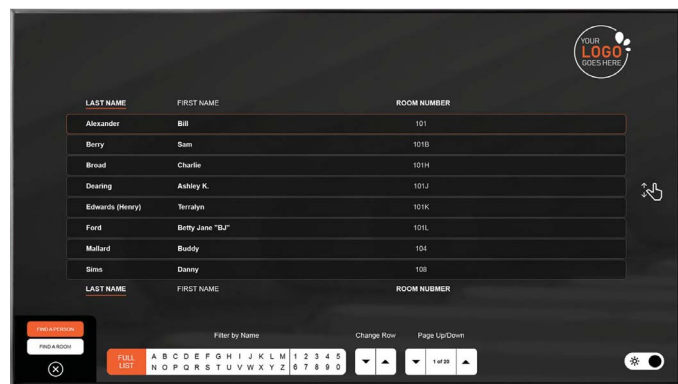

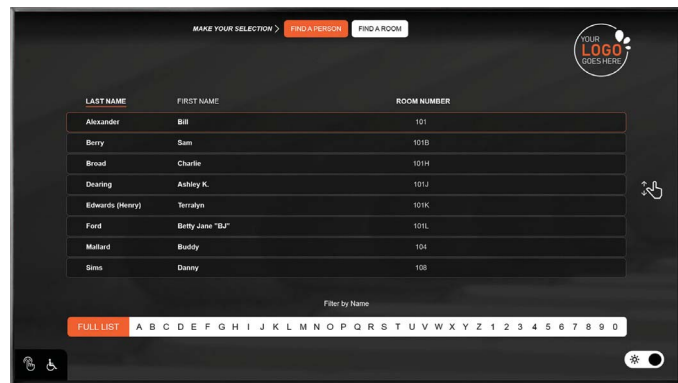

- Portrait or landscape design in one resolution
- 3 Floor maps or 1 campus map with "You Are Here" indicator
- Mapping to up to 40 locations with animated icons
- 2 Directories of your choice sorted alphabetically or numerically
- Marked restrooms, stairs/elevators and exits with matching legend
- Interactive alphabet at bottom of screen for quick filtering
- Design tailored to your brand with your logo, colors and font
- Designed in both light and dark modes with quick toggle switch
- ADA controls at bottom of screen
- Update data via a custom, user-friendly webpage

Interactive Directory

Let people guide themselves instead of relying on receptionists or printed signs. Provide searchable lists of people, rooms, departments, locations and more.

- Portrait or landscape design in one resolution
- 2 Directories of your choice sorted alphabetically or numerically
- Interactive alphabet at bottom of screen for quick filtering
- Design tailored to your brand with your logo, colors and font
- Designed in both light and dark modes with quick toggle switch
- ADA controls at bottom of screen
- Update data via a custom, user-friendly webpage

All templated packages are built in HTML5, and are hosted on the Visix Cloud or your own AxisTV Signage Suite content management server. Pricing includes full project management by a Visix specialist, and installation and scheduling of the design in your AxisTV Signage Suite system. (Hardware and software licenses not included.)

Interactive Donor Board

Touchscreen donor boards are a great way to thank patrons and encourage giving. Highlight individuals or groups within different levels of support.
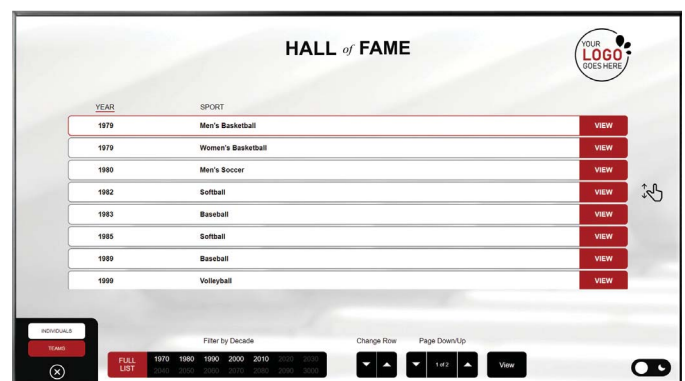

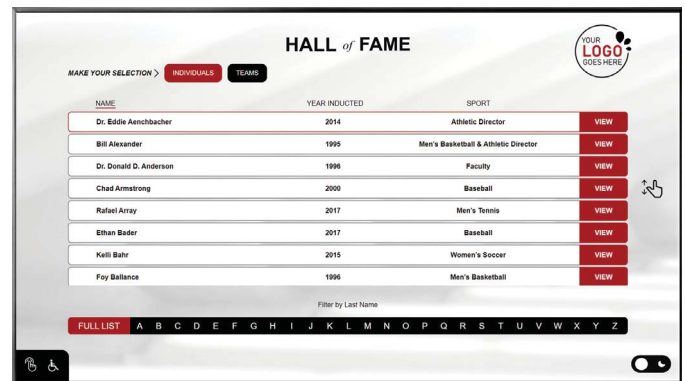

- Portrait or landscape design in one resolution
- 2 Directories of your choice sorted alphabetically or numerically
- Interactive alphabet at bottom of screen for quick filtering
- Design tailored to your brand with your logo, colors and font
- Designed in both light and dark modes with quick toggle switch
- ADA controls at bottom of screen
- Update data via a custom, user-friendly webpage

Interactive Hall of Fame Board

Interactive hall of fame boards are a fun and engaging way to showcase top alumni, scholars, athletes, teams, and the coaches or teachers who helped along the way.
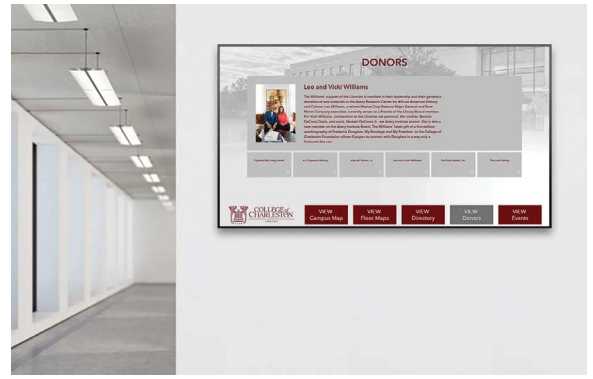

- Portrait or landscape design in one resolution
- 2 Directories of your choice sorted alphabetically or numerically
- Interactive alphabet and dates at bottom of screen for quick filtering
- Design tailored to your brand with your logo, colors and font
- Designed in both light and dark modes with quick toggle switch
- ADA controls at bottom of screen
- Update data via a custom, user-friendly webpage

Custom Interactive

Whatever your idea, our artists will combine imaginative talent with technical know-how to translate it to the screen. Tell us your idea and we'll make it a reality.

- Offer touchscreen menu boards or queuing systems
- Show videos, virtual tours and historical timelines
- Use interactive games to entertain in waiting areas
- Show photo slideshows and archives

Creative Services

Whether you need touchscreen designs or content for static screens, our creative and consulting teams are here to help. We can work with you for launch content, a content refresh or specific screen layouts and visualizations.

- Custom theme packs
- Data visualizations
- Alert templates
- Content campaigns
