

KPI Examples for 10 Teams

Employees like to know where they stand. Key Performance Indicators (KPIs) are measurements that look at progress towards strategic goals or operational targets. Choose something important to your team, find a way to measure it, and then display that on your digital signs. KPIs should always be SMART:

SPECIFIC – the measurement has a specific purpose for the organization

MEASURABLE – able to be converted into numbers and compared with goals or past performance

ACHIEVABLE – something that individuals or teams can actually do in the time allotted

RELEVANT – tied into the overall goals and success criteria of the organization

TIME-TARGETED – the values cover a predefined and relevant time period

MARKETING & SALES

- Sales quotas and targets
- Average profit margin
- Sales by lead
- Sales by region
- Cost per lead

SCHOOLS & COLLEGES

- Test scores
- District or national rankings
